Summary

Frontend Developer with deep expertise in the React ecosystem and modern JavaScript. Experienced in developing scalable and accessible interfaces using Next.js, TypeScript, and cutting-edge technologies. Proven track record of delivering high-quality code with a focus on optimal user experience through various web development projects.

Technical Skills

Frontend Core : JavaScript (ES6+), TypeScript, React.js, Next.js, Astro.js, Vue.js, Nuxt.js

UI/UX : TailwindCSS, Shadcn/UI, GSAP (Animation)

Backend & Database : Supabase, Firebase, PostgreSQL, Drizzle ORM

State Management & Fetching : React Query, Context API

Authentication : Better-auth, OAuth Integration

Tools & Deployment : Vercel, Uploadthing, Git

Projects

Raimerce | E-commerce Platform

Next.js, TailwindCSS, Drizzle ORM, PostgreSQL, Shadcn/UI, React Query, Midtrans

- Developed a complete e-commerce platform with custom checkout system handling transactions for 100+ users
- **Performance optimization:** Accelerated page load times through optimized API fetching and dynamic product catalog
- **Payment integration:** Implemented Midtrans gateway, enhancing security and reducing payment processing time

Github : <https://github.com/lbaliqbal/raimerce>

SolvedThis | Q&A Platform

Next.js, TailwindCSS, Shadcn/UI, Better-auth, Drizzle ORM, PostgreSQL

- Developed a question-and-answer platform with secure authentication through Better-auth
- **High performance:** Implemented server-side data fetching to significantly reduce page load times
- **User security:** Integrated email verification and password reset functionality with Resend

Site : <https://solvedthis.vercel.app/>

Github : <https://github.com/lbaliqbal/SolvedThis>

Balmed | Social Media Platform

Next.js, TailwindCSS, Supabase, React Query

- Built a social media platform with real-time update features using Supabase Realtime
- **Performance optimization:** Implemented infinite scroll for large datasets
- **Responsive UI:** Designed intuitive user interface with TailwindCSS

Github : <https://github.com/lbaliqbal/balmed-v2>

MClass | Online Class Management System

Next.js, TailwindCSS, Drizzle ORM, React Query, Shadcn/UI

- Developed an online class management system with full CRUD operations
- **System security:** Integrated authentication and role-based access control (RBAC)
- **Database optimization:** Optimized database queries with Drizzle ORM for improved performance

Github : <https://github.com/lbaliqbal/mclass>

Nike Landing Page

Next.js, GSAP

- Developed an interactive landing page with engaging GSAP animations

Site : <https://nike-gsap-balss.vercel.app/>

Github : <https://github.com/lbaliqbal/nike-gsap>

Education

Universitas Pamulang

Informatics Engineering

2023 - present

GPA : 3.6

Certifications

- JUNIOR WEB DEVELOPER CERTIFICATION - BPPTIK, 2023

SOFT SKILLS

- Problem solving
- Agile development methodology

- Effective technical communication
- Self-directed and rapid learning ability
